

Johnson are stationed at Ft. Campbell with their daughters Amanda (5) and Alexis (2). Anthony completed his residency in June 1997 and is now an ophthalmologist at Blanchfield Army Hospital.

Kurt Greene is just days away from completing his MBA at Vanderbilt and at the time of printing had not yet accepted a new job. He reports that **Mark & Susan Mitchell** took a break from their "X-Files/Madelaine Jr." jobs to come have some fun in NashVegas.

John Hurst wanted us to pass on his personal thanks to all the classmates who took the time to provide constructive feedback on the reunion. He says, "I was not only impressed by the level of detail in preparation for the reunion by the committee, but I think the overwhelming positive response was equally impressive."

Well, I know the news was a bit choppy, but we wanted as much as we could within the word limit. For those whose info didn't get in, we've got your information in the computer waiting for the next article. Until next time, Our Country We Strengthen!

For those of you that have been keeping track through e-mail you already know this sad news. **Aaron Brody**, G-1, died in a car accident on 19 Jan 98. The accident was blamed on weather conditions. He is survived by his wife **Rose** and **Zachary**, his 5-year-old son. It is the intentions of his company mates to set up a trust fund for **Zachary**. **Tim Isacco** has gone to some length to set up this fund and it is now operational. Tim asked me to let you know that a fund has been established for **Aaron's** son, **Zachary A.**, through **USAA**. The fund is the **First Start Growth Fund**. **Rose**, his mom, is the custodian. Information can be obtained by contacting **Tim** at 760 737-9997 or through e-mail at **TIsacco@aol.com**. If anyone has any questions, they can call him or send a check to him at 2285 Old Ranch Road, Escondido, CA 92027. Our prayers go out to **Aaron's** family.

Tony Freche offers us some uplifting news. His wife **Susan** gave birth to twin boys on 1 Feb 98 at **Keller Army Community Hospital** at **West Point**. **Garrett Antoine Freche** was born at 7:55 P.M. He was 6 lbs. 2 oz., 19½". Dirty blond/light brown/light red hair (yep, he's theirs). **Bryan Albert**

Freche was born at 8:05 P.M. He was 7 lbs. 3 oz., 19". Same features as **Garrett**, but he was the pig. Both boys are doing fine. **Susan** is doing well. **Tony** says that **Susan** was quite the **Ranger** since she accomplished this feat without the use of pain-numbing drugs (she begged for them, but by the time the anesthesiologist made his debut and read her the waiver statement, the doc said that it was time to go). They feel blessed to have two very healthy boys—their lungs and voice boxes are especially healthy. "GO ZOO!"

Ray Colucciello wrote to say hello since it has been almost 10 years now since our big day. **Ray** almost completed his entire five years and departed the **Army** in **January 1993**. He was stationed at **Ft. Drum** the entire time and the highlights on his career were serving as aide-de-camp for a one-star and also a short three-month period as acting commander as a first lieutenant after his commander was relieved. (A very interesting story which made the *New York Times* and *Army Times*.) Right before he departed the **Army**, he got married to an old girlfriend from high school. They have been married for six years and as yet have no children, but lots of pets. **Ray** works for **GE** helping in the design of gas turbines, and his wife **BJ** works as an administrative assistant at an international chemical company. **Ray & BJ** live in upstate **New York**, just north of **Albany**.

Frank Maresco wrote to update his current location and say hello. **Frank** lives in **New Windsor**, where he bought a house two years ago. He still works as a computer systems man at the headhunting firm. **Frank** can just imagine that if he had actually majored in computers at **Woops**, he might actually know what he is doing.

Ken Goodlow sent me an e-mail from the lonestar state. He, **Karen**, and **Kalvin** are doing great. He got a call from **Todd Hecker** who lives in **Atlanta, GA**. **Todd** got his master's at **Tennessee** and is now a business consultant. Thanks for the update, **Ken**.

Meg Foreman sends an update from **Germany**. After **USMA**, **Meg** went to **Hood**, did **Saudi**, then went to law school courtesy of the **U.S. Army**. She did three more years at **Hood** to include throwing lots of criminals in jail for a long time, and just got to **Germany** where she now is defending the wrongly accused. She ran into **Dave Velloney**, who is also now a **JA** in **Augsburg**, and also ran into **Hugh Campbell** and **JB Shattuck** while at **CAS³** this August.

Andrea Hodge writes from **Stanford Business School** where she is in her second year. She is there with two other **WPer's**, **Carlos Perez '89** and **Jeff Hartley '87**. She is the only mom in her class so that tends to

make her experiences a little different from everyone else. **Andrea** has a three-year-old named **Rachel** and a newborn named **Michael**. She got out of the **Army** in 1992 and went to work for **Shell Oil Company** in **Houston** before going back to school.

Andrea has a special request for her friends and company mates. Her mother, **Kathy Ford**, was diagnosed with liver cancer last year. In the past months, the cancer has spread fairly dramatically and her mother has started to undergo chemotherapy in addition to other treatment plans. Because her parents were so active in her **West Point** experience, from sponsoring incredible tailgates to adopting many of the cadets in our class (especially in **B-3** and the women's soccer team) into their home, **Andrea** is asking for a little help for her mom. Her mom is going through the cancer experience alone because her dad died suddenly a few years ago and she knows that **Kathy** would be touched to hear from some of our classmates. **Kathy Ford's** address is 3801 Avenue S. ½, Galveston, TX 77550. **Andrea's** mom still remembers the "West Point days," as she calls them, as being some of her best memories, so how about dropping her a note, thanks.

Gotta go. God bless and keep writing.

Greetings to all who Strengthen the Line. Hope that this column finds you all in good cheer and enjoying the better times in life.

Jay Cole logged in on the class homepage and sent me the following update. He is currently stationed with his wife and two children at **Ft. Monroe, VA**. **Jay** has gone into the **Acquisition Corps** after commanding **B/2-3 FA** in **Kirch-Göns** which included a tour of **B-H** in 1996. He commanded alongside **Jeff Klein** and passed command over to **Eric Company**. Also commanding in **Kirch-Göns** were **Jay Volk** and **Lee Rysewyk**, both in **3-5 CAV**. **Jay** hears from **Dennis Yates** who is in **XVIII Corps Arty** at **Ft. Bragg** and **Jamie Jamison** who is "having the time of his life" at the **ORSA-MAC** at **Ft. Lee**. In the meantime, **Jay** is enjoying his time at **Monroe** and currently playing scratch golf.

Jon & Michelle Tellier also sent an e-mail, describing life at **Ft. Bragg**. **Jon** com-
